

20 Wurlitzer Automatic Player Piano (APP) Newly Arranged Rolls and Rare Recuts

Three examples of 13 terrific newly arranged and produced APP music rolls from our best and most gifted arrangers: Andy Park, Mikey Mills, Adam Swanson, and Domingo Mancuello. Part of the limited-edition 20 roll set. To see all 20 labels and hear samples of the music played on a restored Wurlitzer LX orchestrion, go to:
<https://www.wurlitzer165.net/wurlitzer-automatic-player-piano-ap>.

In recent years, we have produced 131 Wurlitzer 5-tune “changer” APP rolls in five separate subscription projects. All have sold out. Now, by popular request, we collaborated with talented arrangers to produce a variety of “contemporary” or period music that is simply some of the best new music released in decades on any major coin-op music roll platform. You will think you’re listening to a 1928 Wurlitzer arranger transported to today. It is just fantastic!

Many regular customers have already subscribed to the project, but we have a few 20-roll sets left. Formatted for Wurlitzer APP instruments with a six-roll changer, red-cloth leader, and wire bar end. Have a long (non-changer) frame or a Wurlitzer Photoplayer? We can swap the proper cores with a V-tab, D-ring leader. MIDI Files? We have those too. Inquire.

Professionally perforated on quality wax-impregnated paper by Play-Rite Music Rolls, Turlock, CA, in a Wurlitzer-style box with a heavy-stock tune card.

20-roll set expected to ship end-of-year. \$1,775 + \$100 packaging and shipping. \$500 deposit now, balance at shipping.

One of seven mostly rare ragtime recuts. See labels for all on the website or inquire.
